

Zivid C++ API Documentation

Introduction

See <http://www.zivid.com> for a general description of the **Zivid** 3D cameras.

The main classes used to control the camera are **Zivid::Camera** and **Zivid::Settings**.

Examples

See <https://support.zivid.com> for tutorials and troubleshooting. See <https://github.com/zivid/zivid-cpp-samples> for examples of how to use the API.
